ROUTE

168

Finding your way on Route 168 just got a whole lot easier with our new Policy and Resources Website

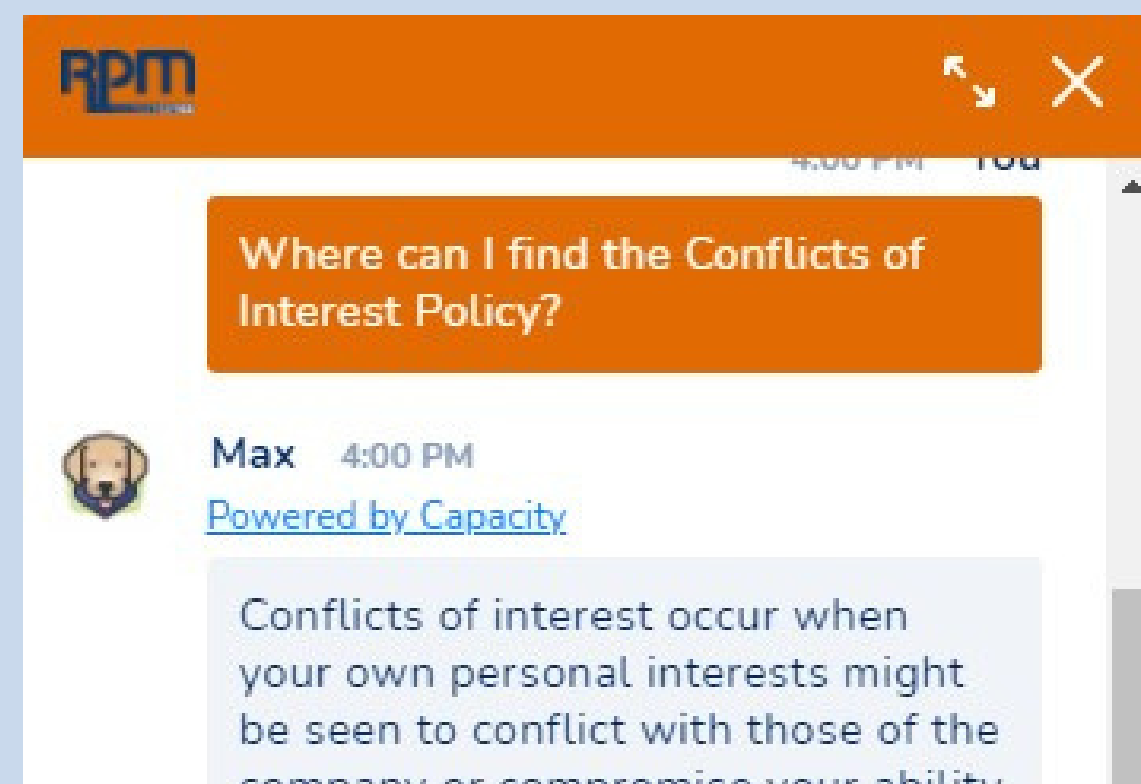

We understand that locating our policies and resources can sometimes be tricky, our new website is designed to provide a one-stop shop.

The site includes:

- Legal and Compliance Policies;
- Finance Policies (login required);
- Data Privacy Policies;
- IT Policies;
- Third Party Management Resources;
- Hotline posters for all locations;
- Route 168 materials and training.

Most of our policies have the ability to be translated within the site, offering multi-lingual options for all our employees.

Should you have any questions whilst on the site or need help finding something Max is here to help, just type your question into the Ask Max function and he is here to retrieve your reply.

If Max is not sure he will pass on your message to a member of the RPM team for follow up.

You can access our new website at:
