Ethical Leadership TO DO LIST

	Talk about Ethics & Compliance with my team at least
	once a month.
	Talk to new hires to make sure they know how to raise
	concerns, where to find the Code of Conduct and what
	the Value of 168 is.
	Lead by example, exemplify RPM's values of
	Transparency, Trust and Respect even if doing so is
<u></u>	difficult.
	Regularly and proactively ask my team members if they
	have concerns or know of any ethical matters that we
	should discuss (Don't assume people will speak up - start
	the conversation).
	Thank someone when they speak up, show care and
	make sure the matter is looked into and closure provided
	to person who spoke up.
	Get comfortable with knowing I won't have all the
	answers and reach out to others in RPM for help and
	quidance.
	Hold my team and myself accountable for completing any
	required actions (online courses, trainings or disclosure
	certifications) in a timely manner.
